Dr. A. Brooks
State Historic Preservation Officer
Department of Archaeology and Historic Preservation
1110 S. Capitol Way, Suite 30
Olympia, Washington 98501

Dear Dr. Brooks:

TRANSMITTAL OF REVISED CULTURAL RESOURCES REVIEW (CRR) AND FINDING OF NO HISTORIC PROPERTIES AFFECTED FOR THE REALIGNMENT OF WELLS OUTSIDE THE TCP IN THE HR-3 OPERABLE UNIT FOR THE 100-DX PUMP AND TREAT FACILITY IN THE 100-D AREA OF THE HANFORD SITE, BENTON COUNTY, WASHINGTON (HCRC# 2015-100-016)

The U.S. Department of Energy Richland Operations Office (RL) is transmitting the referenced CRR for your review. The Area of Potential Effect (APE) was transmitted to your office and Tribes on July 6, 2015. Dr. Whitlam concurred with the APE on July 7, 2015 (Log. No. 070715-01-DOE).

The DX Pump and Treat system in the 100-D Area is proposed for expansion to optimize groundwater remediation in the HR-3 Operable Unit. The expansion includes conversion of a monitoring well to an extraction well, conversion of an injection well to an extraction well, conveyance lines and an above grade road crossing. There are no historic properties located within the APE.

RL has reached a 'no historic property affected' finding for this proposed project. We ask for a written response regarding RL's finding by March 10, 2016.

The referenced CRR and RL's finding are based on the information available at the time of this letter. This correspondence is also being provided to area Tribes. If you have any questions, please contact me on (509) 376-4069 or mona.wright@rl.doe.gov.

Sincerely,

Mona K. Wright
Cultural Resources Program Manager
